## Sponsor Profile

### MAIN LEVEL FLOOR PLAN

We are very pleased to welcome Spectra Light Window Films Ltd. as a sponsor of the Kitchen in our new school!

Spectra Light supplies and installs solar, security and frosted films for commercial and residential applications. They have been serving Calgary and area for over 20 years and are owned by former AKCS parent Doug Klumpp. The connection to AKCS doesn't stop with Doug though. Spectra Light has been a generous supporter of AKCS and the Raise The Roof Capital Campaign and presently two AKCS Alumnus work for Doug in his North East Calgary location!

When asked about his philosophy regarding giving back to the community, Doug is very clear, "If God blesses

you and your business, you have to give back! If you don't, things could change quickly." Spectra Light has stayed true to this mandate and their success is a testament to their spirit of giving. The company started from humble beginnings with a focus on the after-market automotive industry. Soon Doug realized that there were more and more businesses competing for that market, but a virtually untapped market was on the verge of exploding - commercial and residential window films. Doug quickly adjusted his focus and has never looked back.

Today Spectra Light employs 7 full-time staff, stocks a wide variety of products to satisfy most customer requests, and is the exclusive dealer for two of the industries top manufacturers: Lumar and Vista Window Films. As a matter of fact, Spectra Light is such a reputable operator that in 2012 they were named Canadian Vista Dealer of the Year! This is just one of the many awards the Spectra Light team has been honoured with over the years, due in part to their commitment to exceptional customer service.

Thank you Spectra Light for being a proud supporter of Airdrie Koinonia Christian School!
